Packing measures: width abt. 165 mm, height abt. 135 mm (flat bag).

Dimensions of carrots: length abt. 45 up to 50 mm, diameter abt. 10 to 15 mm (after peeling).

Legend: in English only. No date of expiry (imperishability)!

Bought in Düsseldorf.

Peeled by means of fine carborundum.

Further indications: printed on the bag.

All machines required to make this product are supplied by us! See on the web under: "Peeling machines and Peeling plants". By applying the "micro fine-grain peeling technique" you get a very smooth product. - Please read more about that in our paper Q 72 regarding the micro fine-grain peeling. What you find here with reference to potatoes is also valid, in a general sense, for carrots.

Encl. Copies of the packing legend: (2 pages, on demand).

A list of interesting articles and essays regarding the topics of the preparation and processing of tubers and vegetables and associated specialist areas can be found at our Internet site at www.dornow.de, Treatises.

**Review of your current peeling results or
before the purchase of a peeling machine or system:**

**Realistic test peelings with the most diverse peeling systems,
with the most diverse tubers and root vegetables, some fruit, with your raw
produce are possible in our Peeling Test Center!**

This paper contains non-committal notes. We do not lay claim to completeness. Alterations reserved.
Our order confirmation, accepted by our customers, is in effect upon delivery. - The presentation of a
new edition of this treatise will substitute for any previous versions.
